

## A SHOE SALE.

To meet the unprecedented demand for Tan Oxfords this season we have been obliged to carry an enormous stock. Our inventory just taken shows that we still have practically complete assortments of the most desirable styles. Since our store policy permits of no carrying over of unseasonable goods from one year to another, and in order positively to insure a quick clearance of these lines we announce a sale on all of our light weight summer shoes.

## THE YOKE

BY ELIZABETH MILLER

A Biblical story of the times of Moses rivaling BEN HUR in dramatic interest and power.

## HIGHLY PRAISED

By Clergymen, College Presidents and Prominent Men of America

RT. REV. CLELAND KINLOCH NELSON, D. D.

Protestant Episcopal Bishop of Georgia, Atlanta, Ga.

THE YOKE is a clear and sweet romance of the highest interest. It deals with a period and events concerning which the reader has sympathy in advance. As an indication of the attraction which the book has, a lady of my acquaintance picked it up one evening and, despite the fact that she was seriously ill, did not drop it until completed.

REV. H. O. HISCOX, D. D.

Calvary Baptist Church, Albany, N. Y.

It is a remarkable book! Sweet and pure in conception and faultless in expression. It fascinates as sorcery, charming the imagination and ennobling the senses as only truth can.

REV. JAMES H. HOADLEY, D. D.

Thirteenth Street Presbyterian Church, New York.

THE YOKE is a great book and will take its place beside BEN HUR as one of the most fascinating biblical romances of modern times. As a love story it is unsurpassed, and only a woman, with a woman's deep and true intuitions, could have written it.

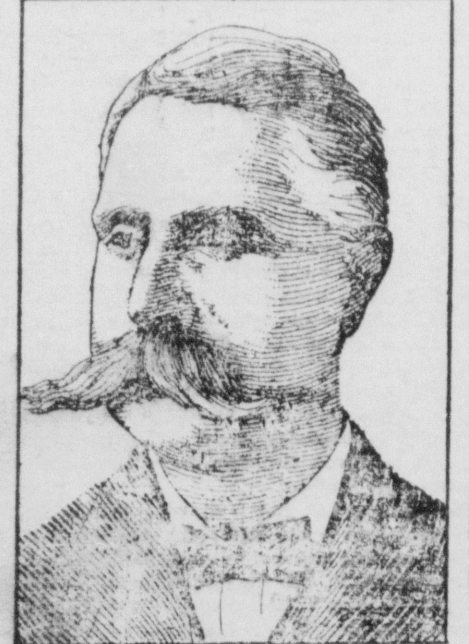

We have secured the serial rights for THE YOKE and will begin its publication in our next issue.

## BETTER FEELING

Prospects of Peace Are Growing Distinctly Brighter.

## BOTH SIDES ANXIOUS

It Is Now Apparent That a Spirit of Compromise Will Finally Rule the Conference.

The Crucial Test On Two Main Points Will Come Next Monday.

Portsmouth, N. H., Aug. 17.—The following official statement was issued last evening: "At the afternoon session of the conference Articles 7 and 8 were discussed; Article 7 was settled in principle, and Article 8 accepted unanimously." It was officially explained that there remained not a difference to be adjusted on Article 7, but only the elaboration of a single point. Article 7 is the cession of the branch of the Chinese Eastern railroad from Harbin southward, and Article 8 provides for the retention by Russia of the portion of the line through northern Manchuria connecting the trans-Siberian road with Vladivostok. The prospects of peace are distinctly brighter today. The plenipotentiaries are laboring with a seriousness and earnestness which leaves not the slightest doubt that both are anxious to conclude a treaty. Though the main points remain to be contested and the plenipotentiaries of each side speak as though the conference would go to pieces unless the other side gives way, the spirit of compromise is in the air. When he returned to the hotel last night Mr. Witte, who was tired out with his hard day's work, said:

"I am doing all I can do for peace. Of the eight articles we have already considered I have yielded seven. No other statesman in Russia would have dared to do so much, and I have done what I have done upon my own responsibility."

From an authoritative source it is now possible to forecast with a fair degree of accuracy that the crisis will come on next Monday. Articles 7 and 8, dealing with the fate of the Chinese Eastern railroad, having been disposed of, there remains in addition to the cession of Sakhalin, which was passed over, the question of indemnity, which came up today as Article 9, the limitation of Russia's sea power in the far East, the surrender of the interned warships and the grant to Japan of fishing rights on the littoral north of Vladivostok. To all except the latter, to which Russia will agree, a negative answer has been returned, absolute in the case of indemnity and Sakhalin. Perhaps both the others may be modified and accepted by Mr. Witte, in order to strengthen his position in insisting upon a concession from Japan regarding its demands of an indemnity and Sakhalin.

Before yielding on either of the latter, it can be regarded as practically certain that Mr. Witte would consult the emperor.

The exchange of views on the five remaining articles is expected to be completed on Friday or Saturday morning at the latest. The plenipotentiaries will then adjourn until Monday, and the interim will probably be used by the plenipotentiaries to consult their respective governments. When they meet on Monday their last cards will be thrown on the table. If there is to be bargaining it will come then and suddenly the conference will be over or peace will be assured. The plenipotentiaries will come together with protocols drawn up to sign and part, or remain for the elaboration of the "treaty of Washington."

## The St. Petersburg View.

St. Petersburg, Aug. 17.—Reports received from Portsmouth that negotiations may be broken off at the end of the week and possibly sooner, have found a distinct echo in high official quarters here where pessimism is especially noticeable. The announcement that the emperor's manifesto summoning the douma will be issued Saturday has added to this pessimism because it had been declared that its date of issuance would be dependent either on the conclusion of peace or the breaking off of the negotiations.

## A NEW REPUBLIC

It Now Seems Likely That This Will Be Norway's Plan.

Christiania, Aug. 17.—Discussing the maintenance of the forts on the Norwegian frontier, Bjornstjerne Bjornson said that he believed that the forts would contribute to the security of Sweden, as after dissolution Norway and Sweden might assist each other in times of danger.

He opposed the action of the storting whereby Norway was put in the position of remaining a monarchy in order to appease the European monarchies instead of being free to establish a republic. Despite the fact that a majority of the people favor a republic, the government has asked Prince Bernadotte to accept the throne. If he does not accept, it will make a similar offer to a Danish prince, and if Sweden prevents this plan from being carried out, Bjornson said, Norway will become a republic.

## GOING AFTER THEM

Juvenile Court Will Protect Boys from Cigarette Agents.

Indianapolis, Aug. 17.—Another anti-cigarette crusade has been started here. Judge George Stubbs of the juvenile court has discovered that young boys on the streets are apparently getting all the cigarettes or "the makings" they need, and his deputies have obtained the names of half a score of them who will be arraigned before him and questioned as to where their material came from. He hopes to be able to find out names of the men or firms who are supplying the boys and to prosecute them so vigorously that it will be a warning to others. It is believed that many of the boys are getting the cigarette paper through the mail from the various houses supplying it. Attorney General Miller says that the case to decide the constitutionality of the anti-cigarette law will be argued before the supreme court in October.

The state board of tax commissioners is evidently determined that the private bankers shall pay more taxes. For instance, a Greenwood banker objected to the assessment of \$7,000 made by the Johnson county board of equalization, and he asked the state board to lower it. The board, however, was in possession of an opinion by Attorney General Miller that the present law for taxing private banks which provides that the deposits may be deducted from the credits and other assessments, is unconstitutional and that private banks must be assessed as private citizens are—that is, according to the property and money they have on hand March 1. The valuation of the Greenwood Banker's property was increased to \$25,570. The Greenwood case establishes a precedent, as it is said to be the first decision of the kind made by the state board. Heretofore about all the private bankers have paid taxes on was the property in which they conducted their business, but the state board expects to get more of their holdings on the tax duplicate.

A bulletin issued today by Secretary Hurty of the state board of health shows there were 2,774 deaths in Indiana in July, an increase of but two over July, 1904. The deaths from diarrheal diseases, however, show an increase of 21.9 over last year, the number being 361. There were 321 deaths from consumption and 110 from cancer. The death rate from typhoid fever was comparatively light, there being but 62 fatalities from the disease in the entire state. Only 20 cases of smallpox were reported and there were but three deaths from the disease.

## Threatened Coal Strike.

Springfield, Ill., Aug. 17.—The alleged discrimination against miners who have been employed in the Chicago and Alton subdistrict, where a controversy is still pending over the employment of shot firers, threatens to tie up the coal district of Illinois. In three of its mines at Virden, Ill., the colliery company has refused to furnish shot firers. The company operates mines at Chatham, Auburn, Girard, Sorenton, Litchfield and Springfield.

## Preparing for Campaign.

Indianapolis, Aug. 17.—The Democratic city committee has opened headquarters for the campaign. Chairman Raub has sent out notices to the precinct committeemen notifying them to select voting places and election officers for the primaries Aug. 25, to elect delegates to the city convention the following day. There is but very little interest in the primaries, owing to the fact that there is no fight on for any of the principal places on the ticket.

Shelbyville, Ind., Aug. 17.—The residence of the Rev. W. B. Harris was robbed of \$22 and the pastor was rendered unconscious by chloroform applied by the burglar.

Anniston, Ala., Aug. 17.—John Jebeles fatally shot Miss Lela McBride, aged twenty-two, and then fired a bullet into his own brain, dying instantly.

Thomas A. Elliott, night city editor of the Detroit Free Press, is dead of typhoid fever, aged forty-five years.

## OUT OF THE PAST

Comes a Story of Murder and Intrigue Involving Millionaires.

## STRANGER THAN FICTION

Property of Miner Faultily Slain in Nevada Turns Up in Hands of Suspected Parties.

Men of National Repute For Years Have Been Guarding Guilty Secret.

Milwaukee, Aug. 17.—In an attempt to prove her right to a share of an estate of \$1,500,000, Mrs. Frank G. Curtis, wife of a Milwaukee automobile dealer, has been with her mother, Mrs. Woodman, traveling through the mining districts of Colorado for the past two years, and it is claimed is assisting to unearth one of the greatest conspiracies involving murder ever known. The conspiracy involves several multi-millionaires, men of national reputation, men known in the highest circles of national politics and finance.

In the early sixties John Murphy was a poor prospector in Nevada. In the latter part of that decade he met in Nova Scotia Mary Fox, daughter of a farmer in that district. After a short engagement the two were married and went West. Shortly after they returned and located in New York city. Later he returned to the West, leaving his wife in New York. He returned later and took her to Chicago, where he deserted her, it is claimed.

Within a year after their marriage the first child, Ona, who is now the wife of Mr. Curtis, was born. During the woman's stay in Chicago after being abandoned by her husband, a second daughter, Elizabeth, was born. She was loath to inform her father of the disastrous end of her marriage and attempted to support herself and children by working. The youngest child was given to a family by the name of Duncan at Logansport, Ind., and was adopted. Later the father of Mrs. Murphy came to Chicago and took his daughter back to Nova Scotia. In 1871 news came to her that Murphy had been murdered in Carson, Nev. During his stay in New York at the time he was accompanied by his wife, Murphy had purchased property valued at that time at \$50,000.

Shortly after his death his wife received letters at Nova Scotia discouraging her from coming West and saying that the property was of little value. Six years ago one of the four bodyguards whom Murphy had employed before his death died at Truckee, Nev. In his possession were found many of Murphy's papers, which claimed to prove him a millionaire.

One of the properties had been occupied by a wealthy real estate man named Purdy, who claimed that the property was legally transferred to him, but since the investigation has disappeared. The various mining properties in Nevada were transferred, it is claimed, in the same way by a man and a woman who impersonated Murphy and his wife.

Among Murphy's papers was found a will leaving all his property to his two daughters. He carried large deposits with the Wells-Fargo Express company, as they admit, but they do not say what the balance was at the time of his disappearance. No effort has been made to get this money or several thousands dollars which he is said to have had in New York banks.

In regard to Murphy's death it is said that it occurred during one of his excursions to his properties in Nevada. At the time he was killed, it is said, he was about fifty miles from Carson City. Some weeks after the murder some of the bodyguards who accompanied him stated that he had been shot from ambush while some distance away from camp. They found the body and interred it. Some of these are now men of national reputation. Two of them are dead.

Murphy's papers were found in the strong-box in possession of one of the former bodyguards. It is said that strenuous efforts have been made on the part of people who are interested in the property for many years to keep the disclosures from coming to the public. Several years after the death of Murphy his wife married a Mr. Woodman.

## Holds Operator at Fault.

Cleveland, O., Aug. 17.—Coroner Siegelstein of this city has rendered a verdict in connection with the wrecking of the Twentieth Century Limited on the Lake Shore road at Mentor, O., on the night of June 23, in which nineteen lives were lost. The coroner holds that Walter F. Minor, the telegraph operator at Mentor, opened the switch which caused the accident.

## The Moroccan Situation.

Fez, Morocco, Aug. 17.—The sultan has declined to accede to the demand of the French minister for the payment of the indemnity and release of the chief of the Algerian settlement at Gharb, who was arrested after having local troubles. The sultan claims jurisdiction over all Algerian settlers in Morocco. The incident may lead to important developments.

## PRESIDENT IS ANXIOUS

Federal Supervision of Insurance Is Now Sought.

Oyster Bay, N. Y., Aug. 17.—Federal supervision of insurance was the subject of a conference at Sagamore Hill. So important, that one of the participants, James M. Beck, formerly an assistant attorney general of the United States and now special counsel for the Mutual Life Insurance company of New York, missing the regular

train from Long Island City to Oyster Bay, chartered a special train in order to meet his engagement with the president. The parties to the conference were the president, Senator Dryden of New Jersey, president of the Prudential Insurance company, and Mr. Beck.

The president for a considerable time, but especially since the disclosures made during the last few months regarding the operations of the Equitable Life Assurance Society, has manifested a deep interest in the problem of national control of the insurance business. Several months ago at the president's request, the subject of national supervisory control of insurance was investigated by Commissioner Garfield of the bureau of corporations, and the conclusion was reached that, under existing federal laws, the insurance business could not be supervised by the bureau of corporations because, in the light of the constitution and in view of certain decisions of the federal courts, it was not regarded as interstate commerce.

At the last session of congress Senator Dryden, who is recognized as an authority upon life insurance, introduced a bill in the senate providing in brief for supervisory control of the interstate insurance business by the bureau of corporations.

## WEAK HEARTS

are caused by indigestion. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

## HOPEFUL OUTLOOK

Health Authorities Encouraged In Fight Against Yellow Jack.

New Orleans, Aug. 17.—New cases yesterday, 66; total to date, 1,146; deaths yesterday, 4; total deaths to date, 176; number of cases under treatment, 415.

New Orleans, Aug. 17.—The campaign against yellow fever has now resolved itself into dry routine and the day has brought little in the way of new developments. Here as elsewhere the lists of new cases and deaths are scanned eagerly by the general public, but the authorities do not consider the daily report of the former an unfailing barometer of the situation at this time when secondary infection and other causes are likely to contribute to a wide divergence of the number from day to day. The fact that the deaths have not risen as, however, considered an important sign and this, with the disappearance of loci and the gradual perfection of the system under which the federal authorities are battling to prevent a rapid multiplication of infected squares is considered by Dr. White to be sufficient to warrant him in saying that the situation was bright and the outlook hopeful.

## A Curious Floral Freak.

Shelbyville, Ind., Aug. 17.—Mrs. Frances Elliott has a curiosity in front of her home in West Washington street which attracts considerable attention. Toledo, O., Aug. 17.—A Lake Erie & Western passenger train struck a carriage at Fremont, fatally injuring Mrs. Wm. Immel and instantly killing her nine-year-old son. The victims live at Helena, near Fremont.

## STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.

Many a man is similarly starved out of business. His digestion is impaired. His food does not nourish him, and for lack of

strength to carry on the struggle he turns his store over to another. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women. "About ten years ago I began to be afflicted with stomach trouble, also diarrhoea," writes Mr. Wm. Walters, of Antrim, Mo. "In warm weather it grew worse, until it did so much for me. I was unable to eat, and my end had come. Tried many remedies, but they gave only temporary relief. In November, 1899, I thought I would try Doctor Pierce's Golden Medical Discovery. I got six bottles and took five in succession, then thought I would wait for a time and take the one left. Soon found I had symptoms of the trouble coming back, so took the sixth bottle and it cured me. I have enjoyed the best of health this summer and the credit all belongs to your 'Golden Medical Discovery.' I can't express my many thanks to Dr. Pierce for his remedy, for it did so much for me. Words cannot express how severely I suffered. If any doubt the above statement let them address me, as I will take great pleasure in answering it."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.

# Worth More Than Gold Nuggets.

People can get along without gold, but they can't do without coal. Of course you can use wood but generally it costs more than coal does.

A ton of good coal will last longer and give more satisfaction than several cords of wood. A ton of famous

will give more satisfaction than a carload of poor coal and is a more economical fuel. This is a broad statement to make but can be proven. Raymond City coal is the best on the market for the price. If you give us your orders now we will supply you with enough Raymond City coal to last until spring at \$3.50 per ton. If you delay it will cost you more later on.

All orders received now will be promptly and satisfactorily filled.

### WORLD FOR PEACE.

It is sincerely hoped by all right thinking men that the peace conference now in session at Portsmouth, N. H., between the envoys of Japan and Russia, will not only agree upon just and lasting terms so far as Japan and Russia are concerned, but that all nations may be benefited and taught a great lesson, not only in the settlement of questions after war has been fought, but such just and fair agreements be made that lasting peace may not only result between Japan and Russia, but that all powers may learn the utter uselessness of war.

President Roosevelt is entitled to the everlasting thanks of the civilized world for his splendid efforts to bring about this much to be desired result, and if he succeeds—as now seems almost assured—the world will hold him in grateful remembrance, and regard him as the chosen one of earth to bring about this lasting good.

Nations have rights, and these rights must be respected by all other nations and humiliation must not enter into the policy of any nation because of strength, but the strong must protect the weak in all their vested rights, and conquest and subjugation must be done away with.

Times change, and it is to be hoped that as nations grow in knowledge, and that education learned in the school of experience, that wars will be no more, and that governments will strive only to excel in the pursuits of peace, and may we not hope that this will speedily come.

The United States, today holds an honorable position among the powers of the earth because of the wisdom of those who have been elected to pre-empt the disadvantages of an entangling alliance with other powers, and because of this freedom from these alliances it has been possible for President Roosevelt to propose to the warring powers that in the interest of humanity they settle honorably and justly their differences and return to the ways of peace.

And this suggestion has had great weight, not only with the powers involved, but with all the powers of the earth, because they believe it was made solely and honestly in the desire for honorable peace.

And they have confidence in the man Roosevelt for his downright, rugged honesty, and his ability to cope with any emergency, and his well known reputation to be eternally on the side of right.

### Popular Engineer.

Engineer Bruce Murphy, who with his family is removing to Mitchell in order to be more convenient to his ran, is one of the best and most popular engineers on the division. He began railroad engineering in 1873 as a fireman. In 1876 he took charge of an engine and has been running an engine ever since. Thirty-two years in the service and twenty-nine years of that time an engineer. He stands high as a railroad man and as a citizen. He has resided in Seymour since his boyhood and the people here regret that he and his estimable family are moving away. But Mitchell is not far and we trust that they will come back home often.

### Big Attraction.

Mr. McQuig, who is here conducting the Carnival Queen contest went to Cincinnati this afternoon to see the leader of the famous Banda Rossa in the hope of securing this band for the Log Rolling and Carnival. He talked to the manager over the long distance telephone and the chances to get this attraction are good. This is a famous Italian band and will be a big feature if secured.

### They Appeal to Our Sympathies.

The bilious and dyspeptic are constant sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets invigorate the stomach and liver and strengthen the digestion. They also regulate the bowels. For sale by C. W. Milhous.

### Institute.

A message from Brownstown this afternoon stated that the institute continues to grow in numbers and that the teachers are well pleased with the inspiration they are gathering this week. All have been looking forward to the lecture of Dr. Bryan tonight with unusual interest. His subject will deal with the government of the Philippines where he spent nearly three years.

Which Question is of the Most Importance to You?

Prof. H. Bishop Vincent the great Psychic Medium and Occult Adept at the New Lynn Hotel will tell you your name, your age, where you were born, what your greatest trouble is, how to overcome it and gain what you desire without you speaking a single word; or in a similar manner give other evidences of his marvelous powers. This is not done to catch business or the raffish but to show those who have money to spend where to go for reliable information.

He will tell you what question is of the most interest to you and give you a complete and comprehensive answer, offering one hundred dollars in gold for every assertion he makes during a reading that is not true or does not come true. He has no equal in America, being the only exponent of Tibetan Lama Knowledge in this country. Beware of imitators. Always consult the best. He guarantees everything and never fails. Call today or tonight. It may be the beginning of a happier life for you.

Special reduced prices to those calling first five days.

Life holds for every man and woman health, wealth, love and happiness if you but knew how, when and where to obtain them, which he will tell you. Each reading occupies one hour and owing to the great strain they are upon the mind and nervous system the Professor can give but five readings a day. Call now or send and make an appointment so as to be sure and get a reading while the prices are reduced.

He has traveled over Europe, Asia, South Africa, Australia and America, lecturing before the greatest scientific lights and deepest thinkers of the age; and hereby invites any judge, lawyer, physician, minister or others making pretensions of psychological knowledge to debate with him on the subjects of atomic symbolism, the harmony of the universe, eternal analogy, the laws of prefiguration, correspondence rejuvenation and suggestion.

He is patronized by kings, princes and the aristocracy of all nations that he visits. His parlors are visited by ladies and gentlemen of the highest walks in life anxious for reliable information as to the outcome of past or present moves.

If any of the following questions are of interest to you call at once and this wonderful man with his mighty occult powers will assist you to gain what you wish.

How can I increase my business?  
How can I remove the evil influences that surround me?  
How can I control the minds of others?

How can I become "lucky" and fortunate in life generally?  
What could I do to gain wealth in the quickest possible time?

Will I marry the one I desire; if so, how soon?  
How can I remove the influence of others from over the mind of a certain party?

Does a certain party love me?  
How can a certain one be cured of their bad habits?

Should I secure a divorce; if so, how should I proceed?  
How can I cause a certain party to love me?

How can I overcome obstacles and gain what I desire?  
In what profession would I be most successful?

How can I (or another) regain health and become well?  
How can I secure the estate or money that is rightfully mine?

How can I get out of the trouble which I am in?  
He reads your life from the cradle to the grave, correctly explaining every hidden thought, sorrow and fear until you are startled and mystified.

Parlors, New Lynn Hotel, Ladies private entrance on Indianapolis avenue. Beautiful reception rooms. Everything private, secret and confidential. Lady attendant in reception rooms.

### SEEING AMERICA.

Wonderful Scenic Trip Across Rocky Mountains to Oregon Exposition.

In certain respects the excursions to the Lewis and Clark Centennial Exposition, Portland, Oregon, via Pennsylvania Lines, beginning May 23rd and continuing through the summer, offer advantages never before presented to Exposition visitors. The trip to the Oregon Exposition, in addition to the attractiveness of the extensive exhibits, includes the journey through the scenic wonderland of the Rocky Mountains and the Cascade Range, and what American has not looked forward from the days of the geography class in school to the time when those great sights should be seen in reality? The trip was never so favorable as now. The trip may be made less expensive than ever. For only a light difference in fare tourists may extend their trip to San Francisco and Los Angeles. The return trip may be made over a different route, enabling travelers to view much more of the west. For full particulars, fares, dates of special excursions to Portland on account of conventions, through time and passenger service apply to ticket agent of Pennsylvania Lines.

# The Yoke

BY  
**Elizabeth Miller**

A romance of the days when the Lord delivered the Children of Israel from the bondage of Egypt.

Will Be Our Next Serial Story

Ranked with Ben Hur by Competent Authorities

REV. S. E. WISHARD,

Synodical Missionary of the Presbyterian Synod of Utah, Salt Lake City, Utah.

What BEN HUR has been to the public in setting forth the times of the Christ, THE YOKE will be in presenting the customs of Egypt and the thrilling events of Israel's bondage and deliverance.

REV. O. W. MCGAUGHEY,

Central Christian Church, Columbus, Ind.

THE YOKE is almost unique in the realm of modern fiction. BEN HUR alone compares with it in subject matter and character.

REV. LUDVIG HOLMES, D. D., L. H. D.,

President Iowa Conference Lutheran Church, Portland, Conn.

The story as such is very captivating and retains an air of plausibility throughout. Except BEN HUR, I know no modern work that compares favorably with THE YOKE. It is beneficial in many respects and ought to be well received and appreciated by all classes.

### FAILED TO RETURN.

Stranger Hired Livery Rig and is Still Out.

Tuesday evening a stranger went to J. B. Love's livery barn and hired a horse and buggy. He said he wanted to drive a mile and a half southeast of the city and would be back the same evening. He was not back yet Wednesday morning, so later in the day Mr. Love drove out to Mr. Smith's, where the man said he was going, and found that he had not been there. The police were then notified and messages were sent in all directions.

About eight o'clock Wednesday night a long distance message was sent from Salem stating that a rig and man answering the description left there about 4 o'clock going south. Nothing more was heard until this afternoon when Mr. Love received a message from the chief of police at Indianapolis stating that the horse and buggy had been found there and that they knew where the man was who drove it in. Mr. Love will go or send a man for the rig this afternoon.

The horse is a good one, Mr. Love having paid \$120 for him a few weeks ago.

### COLLISION.

No. 3 Crashes Into Traction Car Near Winton Place.

As No. 3 was running into Cincinnati Wednesday evening the locomotive crashed into a traction car at Winton Place. The street car was reduced to splinters and three of the passengers were killed and others seriously hurt.

The big locomotive was derailed by force of the collision and after plunging ahead a couple of rods was overturned. Four of the eight cars composing the train were wrecked.

Engineer S. B. Spaulding was pinned beneath the wreckage of his engine and it was some time before he was rescued. He was frightfully burned by escaping steam and was badly bruised and internally injured. His condition is critical. Spaulding is 70 years of age and is one of the oldest and best engineers on the road. A number of the Seymour railroad men know him intimately.

W. B. Gallivan, road foreman of engineers, who was in the cab was also seriously injured and was taken to Betts Street Hospital. The fireman Ed Brown, was not much hurt.

Those killed outright were Robert J. Smith, of Winton Place, William Tuetting of Cincinnati, and Alfonso Stanfritz, of Cincinnati.

### RAILROAD RUMBLINGS.

The record breaking run made Monday on the B. & O. Southwestern by the Mound City limited, train 11, in charge of Conductor Cole, with Byron Robinson at the throttle is the chief topic of conversation among railroad men and the engineer's ability to maintain such terrific speed for such a distance has been the subject of much favorable comment. Robinson beat his own record of Monday a week ago when he made the run from Washington to St. Louis in 162 minutes.

The Southern Indiana earned in the month of June gross \$107,874 earned net \$45,514. For the fiscal year ended June 30 the road earned \$1,380,055, earned net \$592,682. For the year an increase of \$26,919 is shown in net earnings.

Engineer Bruce Murphy and family are loading their household goods in a car and tomorrow will go to Mitchell to reside. The change is made because it will put Mr. Murphy closer to the end of his run and therefore will have more time at home. Their Seymour friends regret very much to have them move.

## The Burt and Packard

We have added to our large stock of clothing a complete line of MEN'S AND BOYS' SHOES, embracing the best grades of work shoes up to the finest foot wear for dress occasions. In making a specialty of Men's and Boys' Shoes only, we think that we will be in a position to give to our patrons:

FIRST—A larger variety of styles to select from.

SECOND—A better quality of shoes at a price much lower than the same class of goods is generally sold for.

### For Our Dress Shoes

We have installed the Burt & Packard. In the Burt & Packard is embodied every new feature conducive to comfort, fit and durability, yet never sacrificing style. Style we believe to be one of the first ingredients of successful shoe making, and to style add dependable upper stock, oak sole leather, solid leather counters and box toes with skilled union workmen to construct and what is the result?

### The Packard Pronounced Peerless

Our entire line of men's shoes from the cheapest to the best will have merit and intrinsic worth, as it is our intention to handle nothing but reputable goods that will give entire satisfaction to the purchaser. When needing shoes give us a call.

## Take Your Eyes To The Blind Asylum.

And after viewing the sightless inmates and hearing the heart rending tales of these poor unfortunate inmates, put there by having their eyes examined and wearing glasses fitted by these "so-called graduated Opticians and Spectacle Peddlers," see if you will go on in the future blundering by changing your eyesight to this class of "Eyesight Specialists," or whether you will consult some one who has a thorough medical as well as a technical optical education and is competent to examine an eye.

It is as dangerous for you to have your eyes examined or glasses fitted by this class as it would be if you were sick to enter the druggist's store without a physician's prescription and commence sampling the different bottles on his shelves. In one case it would mean death in the other it means impaired eyesight if not total blindness.

Did you ever stop to think that many of you are unknowingly wearing glasses improperly fitted by this class and that glasses of this description do more harm than good?

Have your eye work done properly, costs less to get the benefit of my medical and optical training, besides you have the assurance that your work will be satisfactory or your money will be refunded.

Treat your eyes properly, they are your best friends. Abuse them and they will forsake you. It pays to have ones eyes examined regularly and—IT SAVES. It is easy to neglect ones eyes but—IT RUINS.

#### A Warning to Mothers.

Too much care cannot be used with small children during the hot weather of the summer months to guard against bowel troubles. As a rule it is only necessary to give the child a dose of castor oil to correct any disorder of the bowels. Do not use any substitute, but give the old-fashioned castor oil, and see that it is fresh, as rancid oil nauseates and has a tendency to gripe. If this does not check the bowels give Chamberlain's Colic, Cholera and Diarrhoea Remedy and then a dose of castor oil, and the disease may be checked in its incipiency and all danger avoided. The castor oil and this remedy should be procured at once and kept ready for instant use as soon as the first indications of any bowel trouble appears. This is the most successful treatment known and may be relied upon with implicit confidence even in cases of cholera infantum. For sale by C. W. Milhous.

## AS A COMPLICATION

More Confusion in the Interpretation of New Laws Is Reported.

### IT IS UP TO THE MAYOR

Situation at Jeffersonville Calls For Board of Works and None Has Been Appointed.

Completion of Street Improvement There May Force the Hand of Mayor Burtt.

Jeffersonville, Ind., Aug. 17.—The completion of a contract for the improvement of Walnut street in this city, which is now ready to be turned over to the city, may force the hand of Mayor Burtt and compel him to appoint a board of works. Hitherto he has gone on the theory that as the legislature continued all officers and councilmen in office, they were expected to continue to discharge their old duties. In taking over the street, however, and in issuing bonds for the payment of the contract, it has been found that a board of works must take charge of the work. Mayor Burtt has not stated what he will do.

### LETTER WAS LOADED

Marked Money Leads to Detection of Postoffice Thief.

Shelbyville, Ind., Aug. 17.—Frank Innes, aged twenty-five, who has been a stamping clerk in the postoffice in this city for six years, has been arrested charged with robbing the mails. For the past two years Postmaster Lewis has received complaints that letters containing money and registered packages have not been delivered and would disappear as soon as they reached the postoffice here. Postmaster Lewis notified Postoffice Inspector Fletcher of the matter and Fletcher has been working on the case for some time. Fletcher placed three \$1 bills in a registered letter and sent it through the mails. One of the bills was located in a restaurant in this city. The proprietor of the restaurant said that Innes ate supper in his place and gave him the bill and received his change.

Postoffice Inspector Fletcher arrested Innes, who confessed taking the \$3, but said this was the only money he ever took. Innes was taken to Indianapolis. He is married and has one child.

### Premises to Be Interesting.

Fowler, Ind., Aug. 17.—Miss Phyllis Grubb has begun a slander suit against Charles Sheppard of the Raub neighborhood for \$3,000 damages, alleging in her complaint that the defendant has wrongfully accused her in the presence of witnesses of being a thief. Sheppard is one of the wealthy farmers of the county and the suit promises to be interesting.

### Collar Led to Arrest.

Evansville, Ind., Aug. 17.—Mackey Hinkle, son of a prominent wholesale merchant, had a desperate encounter with a negro burglar, but put the man to flight after securing his collar. With the collar as a clue, the police arrested Willis Wallace, a negro houseman, employed in a fashionable house in Riverside avenue, who has confessed.

### Kansas Beaten a Block.

Shelbyville, Ind., Aug. 17.—James Agnew, residing on the Morristown pike, three miles from town, says he has the tallest cornstalk in the state. It has been growing in a swamp in the stub of an ash tree and, from the ground to the tassels, measures thirty-five feet.

### Collided With Circus Train.

Brookville, Ind., Aug. 17.—As the John Robinson circus was tracking here a local freight train dashed into the first section of the circus train, which had fortunately just been un-loaded. Both engines were demolished and the entire train badly smashed.

### Boy Fatally Struck.

Evansville, Ind., Aug. 17.—August Huck, aged fifty-one, and Louis Schwaer, aged sixteen, became involved in a quarrel when it is alleged, Huck fatally stabbed Schwaer in the breast near the heart. Huck was arrested.

Embankment Is Charged.

Elkhart, Ind., Aug. 17.—B. G. Romaine, owner and steward of the Century club, was arrested charged with embezzling \$400 of the club's funds. He is a brother of ex-Senator Treasurer Frank Romaine, and is well connected.

Father Fatally Killed.

Breath, Ind., Aug. 17.—John Brown, aged twenty, was fatally killed by a pile driver on a bridge over him.

Young Man's Suicide.

Pera, Ind., Aug. 17.—Richard Funnell, a professional farmer, took his life last night. He said, his wife had left him.

Drowned in the Ohio.

Rockport, Ind., Aug. 17.—Edward Miller and Ed Smith, two boys, were drowned in the Ohio river while swimming.
